QUICK GUIDE

Create and Manage **Feeds & Alerts**

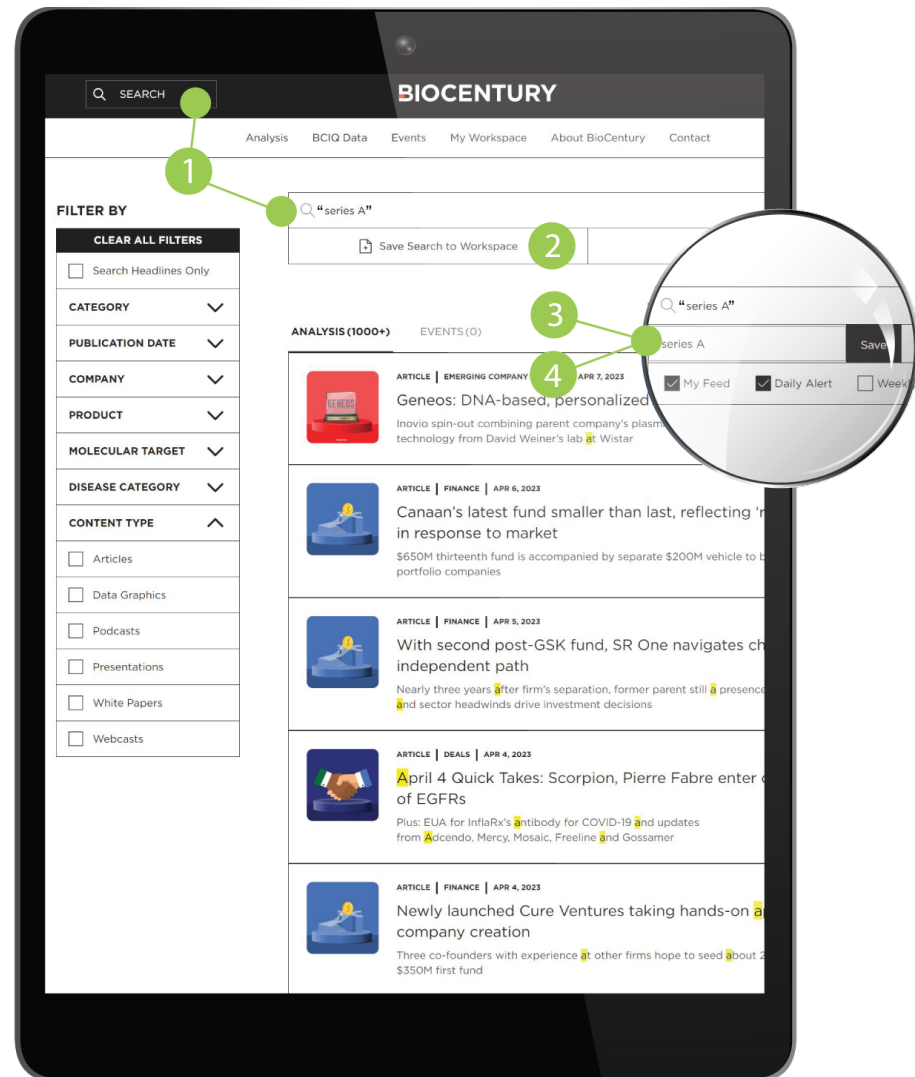

Never miss new intelligence on specific companies, products, targets, and topics you want to follow. With alerts that are sent to your email inbox and saved in My Workspace, you can make sure that you have the latest information as soon as it is published.

How to Set up Feeds and Alerts

Receive new and personalized analysis right to your Workspace and inbox

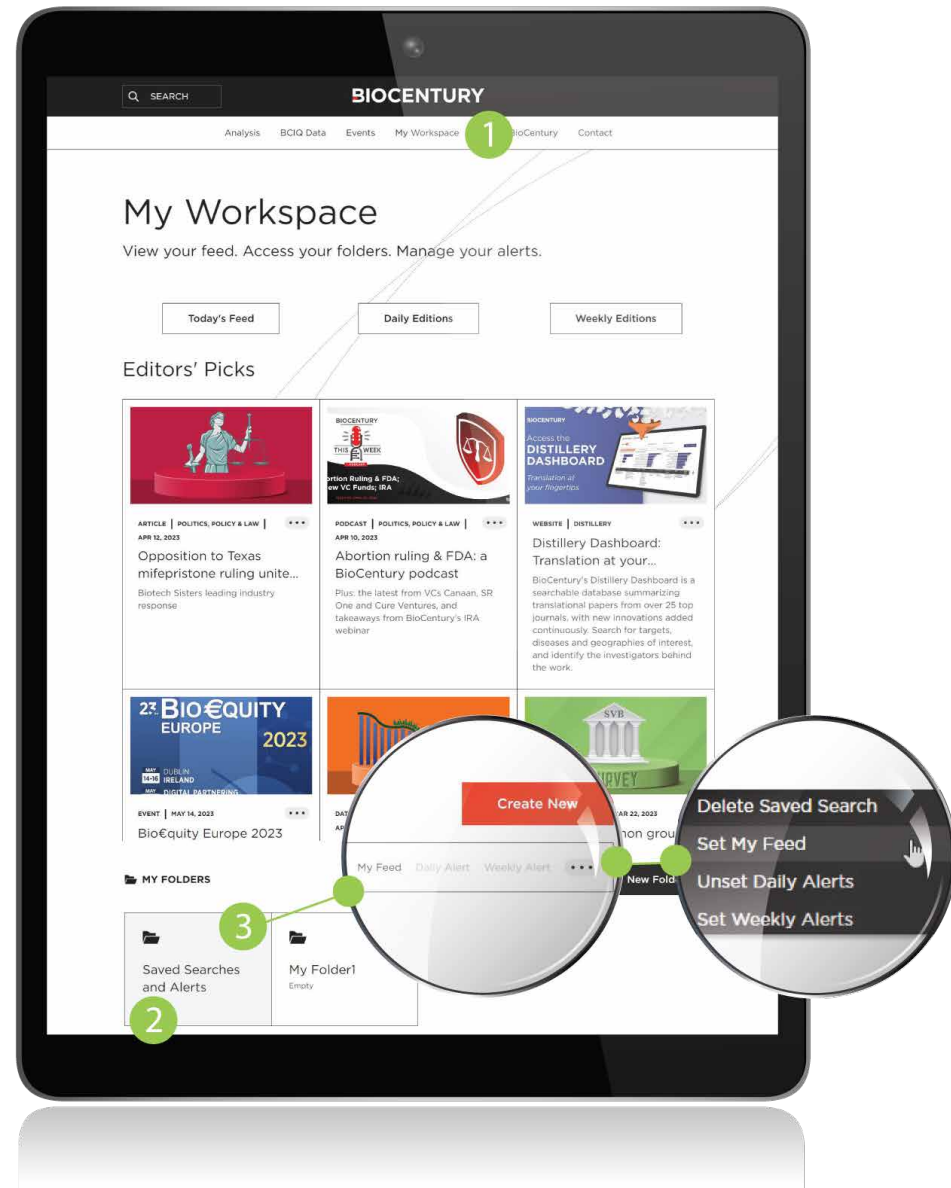

- 1 From anywhere on BioCentury.com, enter your desired term – e.g., “Series A” – in the **search box** in the top left corner. Then, click the **magnifying glass** icon, or just hit enter on your keyboard.
(Tip: use “double quotes” to search for an exact term, as we did here)
- 2 When you are ready to save your alert, click **Save Search to Workspace**
- 3 Enter a name for your search. You have the option to **add the search** to your personal feed in **My Workspace**, as well as select a **Daily** and/or **Weekly** alert
- 4 Click **Save**.
(Note: You will only receive alert emails if there are new articles that fit your search criteria available)

View, Modify, or Delete your Saved Feeds & Alerts

Occasionally you may want to modify or delete a search. Follow the steps below to make changes or to delete one of your saved feeds and alerts.

- 1 Click **My Workspace** from the top menu
- 2 Scroll down to **My Folders** and click the **Saved Searches and Alerts** folder.
(Note: You may also scroll down further to find *My Feeds and* click "Configure Feeds")
- 3 Click the **three horizontal dots** on the right side of the saved search to **add** or **remove** it from your feed, **edit alert frequency**, or **delete** the search.
The highlighted portions indicate your active selections
- 4 A **pop up** will appear in the middle of your screen confirming the action. Click the large **X** to finish

Searching Tips

- 1 Checking the **Search article headlines only** box will search only the **titles** of articles, not the full text
- 2 You can use **AND, OR, NOT** to narrow or broaden your search. Make sure to use **ALL CAPS** when using these during searching.
- 3 Want more tips? Just click the “Search Tips” option next to **Save Search to Workspace**

The screenshot shows the BioCentury website search interface. The search bar at the top contains the query "Series A" AND "Cell Therapy". The search results are displayed in a list format, with the first result being "April 12 Quick Takes: Function Oncology launches with \$28M".

Three numbered callouts highlight specific features:

- 1**: Points to the "Search Headlines Only" checkbox in the "FILTER BY" section.
- 2**: Points to the search query "Series A" AND "Cell Therapy" in the search bar.
- 3**: Points to the "Search Tips" link next to the "Save Search to Workspace" button.

The "FILTER BY" section includes the following options:

- CLEAR ALL FILTERS**
- Search Headlines Only
- CATEGORY** (dropdown)
- PUBLICATION DATE** (dropdown)
- COMPANY** (dropdown)
- PRODUCT** (dropdown)
- MOLECULAR TARGET** (dropdown)
- DISEASE CATEGORY** (dropdown)
- CONTENT TYPE** (dropdown)
 - Articles
 - Data Graphics
 - Podcasts
 - Presentations
 - White Papers
 - Webcasts

The search results are categorized into "ANALYSIS (382)" and "EVENTS (0)". The first result is an article titled "April 12 Quick Takes: Function Oncology launches with \$28M" dated APR 12, 2023. The second result is an article titled "With second post-GSK fund, SR One navigates changes along independent path" dated APR 5, 2023. The third result is an article titled "Replay launches Syena to merge NK and TCR technologies" dated FEB 14, 2023. The fourth result is an article titled "Jan. 27 Quick Takes: FDA approves first oral SERD" dated JAN 27, 2023. The fifth result is an article titled "Jan. 13 Quick Takes: Stevens' Structure Therapeutics files for IPO" dated JAN 13, 2023.
