BIOCENTURY

Accessing **BCIQ Profiles**

Explore and analyze data-rich profi les for Companies, Targets and Products to understand your market and make better business decisions.

Navigating to the Profiles

From Homepage:

Hover over BCIQ Data in the navigation bar and select the profile type you want to view

From an Article:

- 2 While reading an article, click the underlined companies, products or targets you want to view
- 3 You may also access the profiles on the **right hand menu** of the article

Company Profiles

These profiles provide a quick snapshot of a company's pipeline, deal and funding history, and related BioCentury intelligence.

- 1 Visit the **Company Profiles page** to begin your search.*The search function uses predictive text to fill in available options*
- 2 Profiles include a **breakdown** of each company's pipeline by **stage and disease** category as well as a list of upcoming milestones

Target Profiles

Explore a particular target

Visit the **Target Profiles** to start your search. Target profiles, like the CTLA-4 example, include a breakdown of compounds by development stage and regulatory designation, as well as upcoming milestones and related BioCentury content

Product Profiles

Analyze a specific product

BCIQ Product Profiles – such as for CAR T therapy Kymriah – provide graphics on regulatory stage by disease, upcoming milestones, partnering info and related BioCentury content

Financial Dashboards

Keep up with daily gainers and see how much money has been raised through financings

Financial Dashboards provide **in-depth financings** and **stocks data** on the **biopharma market** for you to analyze
