BIOCENTURY

BCIQ Profile Reports

BioCentury's intelligence database, BCIQ, is carefully curated by our Editorial and Business Intelligence teams and houses thousands of companies, targets, products, diseases and deals. You can access the profiles from your desktop or mobile device. All BioCentury subscriptions include company, target and product profiles. BCIQ subscriptions have access to the disease and deal profiles.

Navigating to the Profiles

From Homepage:

Hover over BCIQ Data in the navigation bar and select the profile type you want to view

From an Article:

- 2 While reading an article, click the underlined companies, products or targets you want to view
- 3 You may also access the profiles on the right hand menu of the article

From BCIQ:

- Select BCIQ Data from the navigation bar.
- Click the downward pointing chevron next to Profile Reports from the BCIQ navigation bar and select the profile type you want to view

Company Profiles

These profiles provide a quick snapshot of a company's pipeline, deal and funding history, and related BioCentury intelligence.

- 1 Visit the **Company Profiles page** to begin your search.*The search function uses predictive text to fill in available options*
- Profiles include a breakdown of each company's pipeline by stage and disease category as well as a list of upcoming milestones

Target Profiles

Explore a particular target

Visit the **Target Profiles** to start your search. *Target profiles, like the CTLA-4 example, include a breakdown of compounds by development stage and regulatory designation, as well as upcoming milestones and related BioCentury content*

Product Profiles

Analyze a specific product

BCIQ Product Profiles – such as for CAR T therapy Kymriah – provide graphics on regulatory stage by disease, upcoming milestones, partnering info and related BioCentury content

Disease Profiles

- The **Disease Profiles** allow you to search for any Disease Category or Standard Indication. You can also find all the Deals, Financings and Articles by selecting the respective **tabs under the search bar**
- 2 The Disease Profiles include helpful visuals to display the Top Targets, Regulatory Designations, Number of Products by Phase of Development and even Milestones.

Deal Profiles

- The Deal Profiles give you access to over 20,000 individual deals to explore, from Mergers & Acquisitions to Development and Commercialization License deals. You can search for the specific companies involved in the deal, as well as enter the specific role they held in the deal itself
- 2 The search will result in a list of **all the deals** between these two companies. Note: you are not required to enter two companies or any roles. You can simply enter one company and see all the deals in which they have participated
- 3 Once you have found a deal that interests you, select the **Deal Headline link** and you will be taken to the Deal Profile. Here, you will see a comprehensive breakdown of the entire deal, from the responsibilities of each company involved, Asset and Financial Characteristics, and even source document(s) where the data was pulled

Financial Dashboards

Keep up with daily gainers and see how much money has been raised through financings

Financial Dashboards provide **in-depth financings** and **stocks data** on the **biopharma market** for you to analyze
